

Petach Tiqva, Israel, June 27<sup>th</sup>, 2018 – Twine Solutions has named Delta Galil as its first beta customer for its proprietary Digital Selective Thread Dyeing System and Solutions. Delta Galil Industries is a global manufacturer and marketer of branded and private label apparel products for men, women and children, have received its first digital dyeing system in June 2018, where it will be used to support Delta's goals in developing new fabrics, products, finishing technologies and marketing concepts.

Delta Galil leads the industry in technological innovation in textile manufacturing, products and design and as such Twine's Digital Selective Treatment (DST) technology is the right match in to Delta's mission in evolving and innovating with high impact emphasis on our environment.

*Gil Shimon, President of Global Upper Market at DGI was quoted: "Known for its innovative mindset, it is only natural for Delta Galil to join forces and collaborate with Twine. This will enable Delta to bring its customers the most updated digital solutions for textile, making sure they continue to be market leaders in their field. Constantly aware of the pulse of the marketplace, Delta Galil is depended on leading apparel designers and retailers worldwide to help them introduce new products and innovative manufacturing solutions that answer consumer demands and help grow their market share."*

*Alon Moshe, Twine Solutions CEO and Co-founder comments: "Delta are high quality apparel global leaders, who continuously focus on quality, design and innovation. We are thrilled that they have embraced twine's cutting-edge technology, together we will revolutionize the thread, fabric and garment industries".*

### **About Twine Solutions Ltd**

Twine Solutions was founded in 2015 in Israel, with seasoned multidiscipline professionals emerging from the digital printing and textile industry.

Twine is an award-winning technology startup developing a proprietary and revolutionary digital thread dyeing system, and a digital dye to match mobile application.

Twine's system continuously dyes a single raw or off-the-shelf (white) thread to any requested length and in any color, with a choice of millions of colors, shades, as well as color gradients.

Twine's DST (Digital Selective Treatment) disruptive technology eliminates the need for colored thread stock, dramatically reduces logistics, dead stock and other waste costs as well as dramatically reducing time to market.

The single thread, single needle, multi-color method will free creativity and design limitations, while improving production efficiencies, margins and overall profitability, all that in a sustainable, eco-friendly process. Learn more at <http://twine-s.com/>

### **About Delta Galil Industries**

Delta Galil Industries is a global manufacturer and marketer of branded and private label apparel products for men, women and children. Since its inception in 1975, the Company has continually strived to create products that follow a body-before-fabric philosophy, placing equal emphasis on comfort, aesthetics and quality.
